

23<sup>rd</sup> – 24<sup>th</sup> May 2011

## CISA Revision Workshop

The two day workshops focus on the essential areas covered in the CISA exam. During the workshops you will be given CISA examination questions in groups to attempt. Discussion/debates within the groups will be followed by a review of the correct answers, which will provide you with a better understanding of what the ISACA Certificate Board expects. The intensive course is an ideal way to prepare for the exam.

The workshops aim to provide candidates with a review of the tasks and knowledge requirements for each CISA domain and to help identify any omissions in their knowledge.

This course will be delivered by Alan Robson BSc CISA

### Past Delegate Comments

*"Just to let you know as agreed at the workshop in December, I passed CISA. Thanks again for your help."*

*"Thanks for all your help, the course really paid off".*
